### Job Posting – Operations Forester

#### Background

The Vermilion Forest Management Company Ltd. (VFM) is the Sustainable Forest Licence (SFL) holder for the Sudbury Forest. VFM is responsible for forest management planning, forest renewal and compliance processes on the management unit. The Sudbury Forest is within the transition between the Great Lakes St. Lawrence and the Boreal Forest Region around the Greater City of Sudbury and offers an interesting and challenging range of forest stand conditions.

Successful incumbent will join the VFM forest management team to support current operations planning and implementation workload.

#### Duties:

- Developing Forest Operations Prescriptions,
- Completing inspection of forest operations and preparing reports submitted to the Forest Operations Information Program,
- As a team member, providing operational input into the preparation/revision of documents pertaining to forest management planning, annual work schedules and annual reports,
- Liaising with the general public, forest resource license holders, Indigenous communities, local stakeholders, government, and adjacent SFLs,
- Participating in periodic Independent Forest Audits and Forest Stewardship Council Certification Audits,
- Maintaining up-to-date knowledge on provincial forest management legislation, policies, guidelines and direction,
- Participating in forest management research and development projects.

#### Qualifications:

- The ideal candidate will possess a Forestry degree with membership (or potential) in the OPFA as a Registered Professional Forester,
- Strong beliefs and behaviours in safety, professional ethics, environmental values and results,
- Demonstrated ability to work in a team environment; excellent multi-tasking, organizational and communication skills,
- Experience in operational forest management planning as it pertains to forest operations,
- Experience in preparing harvesting prescriptions,
- Experience in Compliance Monitoring (Ontario Compliance Inspector Certification would be considered an asset),
- Demonstrated use of geographic information systems software and data, as well as GPS data collection,
- Knowledge in word processing, spreadsheet and database programs,
- Familiarity with shelterwood and selection silviculture systems forest operations and tree marking experience in the Great Lakes-St. Lawrence forest region,
- Tree Marking experience (ability to obtain Level 1 & 2 tree marking certification is considered an asset).
- Bilingualism is considered an asset.

#### Contact Information:

Please email your resume with a short covering letter in confidence to [vfm@sudburyforest.com](mailto:vfm@sudburyforest.com) by Sept 23<sup>rd</sup>, 2022. VFM thanks all those who express interest however, only candidates considered for an interview will be contacted.
